

# Goldenrod

(Solidago spp.)

Photo: Dan Mullen

**Sun Exposure:** full sun

**Height:** 1 - 3 ft.

**Bloom Season:** late summer, fall

**Soil:** medium or dry

**Wildlife:** Attracts birds, butterflies, bees and other pollinators

**Fun Facts:** Although it is often confused with ragweed, goldenrod does not cause allergies.

Native Americans used this plant to help with pain.

**\* NC Native**
